

# Factory Finish Paint

*Factory Beauty and Durability*

## Maximum Sizes

- Doors: 4'0" x 8'0"
- Welded Frames: 4'0" x 8'0"
- KD Frames: 8'0" x 8'0"

## Advantages

- Faster project completion as the painting process at the jobsite has been eliminated.
- Less mess and clean-up at the jobsite from the painting process.
- Lower cost of ownership as factory finishing is more efficient than jobsite preparation and painting.

ASSA ABLOY, the global leader  
in door opening solutions

Fleming Door Products is one of the few manufacturers with the capability to deliver factory finished doors and frames (Welded or KD) with custom color matching capability. With a Fleming Factory Finished product, a building's project manager has more flexibility to complete the job correctly and on schedule.

## Factory finishing eliminates these jobsite concerns:

- Dirt in the paint
- Jobsite mess and clean up
- Toxic and harsh smelling paint fumes
- Federal and local environmental limitations

Fleming Factory Finish Paint is extremely durable and is factory applied in a controlled environment to ensure consistent and high quality results. The beauty of the finish cannot be matched by application of coatings at the job site.
