Fleming Announces New Prime Paint Option

Fleming Door Products is pleased to announce the introduction of our new prime paint option. The new prime paint option is water based gray primer that can be applied to any Fleming door or frame product. The new prime paint is applied in a controlled environment to ensure consistent and high quality results when applying finish paint on the door or frame in the field. Fleming can also provide factory applied finish paint for doors and frames upon request.

The new prime paint option can be found in the new Fleming price book. The factory finish paint option pricing can be obtained by quote only.

More information is available at www.flemingdoor.com.

If you have any questions, please contact Fleming Customer Service or your local ASSA ABLOY Door Security Solutions Representative.
