

Energy Efficient Steel Stiffened Door

Strong, Beautiful, Green

Beautiful

- Smooth surface allows for a beautiful gloss finish
- Laminated face sheets eliminate surface weld marks that are normally seen on most steel stiffened doors
- Aesthetically pleasing prefinish color options available
- Several door design options
- Hurricane rated up to +/-100 psf
- 22 Gauge stiffeners
- 18 Gauge face sheets

Green

- As much as \$1.80 per sq. ft.
- Retrofitting a building for energy efficiency qualifies for a tax deduction
- A Trio-E Door contains high levels of recycled steel for LEED requirements
- 66.9%
- U-Factor of 0.36 Superior insulation for maximum energy efficiency
- Reduces heat transfer
- High thermal rating
- Reduces energy costs

Strong

- The Trio-E has a Class 1 stiffness rating
- 3 Hour fire rating

ASSA ABLOY

ASSA ABLOY, the global leader in door opening solutions

Approximately 40% of all energy leakage comes from the building envelope* this includes exterior doorways. Trio-E doors installed with ASSA ABLOY brand Thermal Break frames and seals help increase thermal retention and reduce energy leakage.

*Tony Woods, Air Tight Buildings, 2005
